<p>Mapping Economic Resilience: Report to Friends Provident Foundation. New Economic Foundation. 2012 (draft version – not publicly available)</p>	<p>Friends Provident Foundation aims to contribute to the establishment of a fair and sustainable economic system. This report examines the concept of economic resilience as the framing for a new social change programme, and considers how such a programme should be constructed in relation to other organisations and interventions operating in the field.</p>
<p>The Loop, the Lens, and the Lesson: Using Resilience Theory to Examine Public Policy and Social Innovation. Michele-Lee Moore, Frances Westley, Ola Tjornbo, Carin Holroyd. 2010. Working Paper No. 003. SiG, University of Waterloo. <i>The final version of this article appears as a book chapter in 2012 Nicholls and Murdock eds. Social Innovation.</i></p>	<p>Social innovation is an important component of being resilient – new ideas will keep a society adaptable, flexible and learning. One of the necessary conditions deal with the role of the state and public policy to foster social innovation. This paper uses resilience theory and the adaptive cycle to argue that different policies have greater impact at specific points of time in the cycle of social innovation.</p>
<p>Resilience: A Literature Review. Patrick Martin-Breen and J. Marty Anderies. 2011. Commissioned by The Rockefeller Foundation (The Bellagio Initiative).</p>	<p>Few studies have offered a look at resilience across fields: psychology, engineering, ecology, disaster planning and organizational management, complex adaptive systems and economics. This literature review fills this gap, synthesizing both the theoretical underpinnings of resilience and compelling applications for an international development audience looking at issues that affect the poor and vulnerable.</p>
